Greenscape Pro™

Bid, Billing and Customer Management

Customer history, current status and job profitability at a glance.

Estimates and invoices are easy-to-use and customized.

Enter your custom work items & descriptions specific to landscaping, lawn care, and tree care.

Flexibly manage the relationships between billing addresses, multiple work locations, and multiple contacts.

Manage Customer Calls & Scheduling

Schedule estimates and multiple work crews

Set alarm reminders to call on customers for estimates and periodic maintenance.

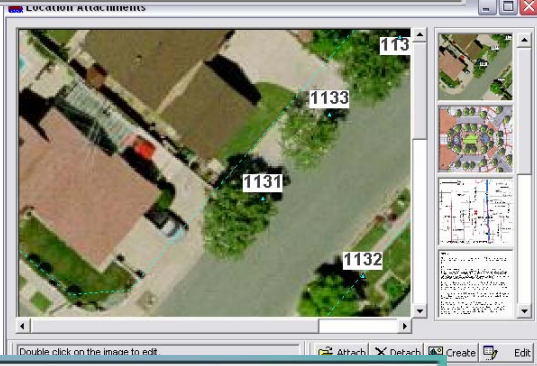

Link Site Plans, Maps, Images & Files

Seamlessly link site layouts, CAD files, digital photos, plans, contracts, documents and more.

Seamless QuickBooks Integration

Avoid double data entry or "posting journals" to your accounting.

Direct integration of invoices and customers into QuickBooks.

Link Laptop, Tablet & Handheld Computers

Use a laptop at the jobsite to access your customer database, write estimates and use your data.

Seamless synchronization of portables with your company database.

Designed by Green Industry Professionals

10 years experience with landscaping, lawn & tree care software.

We can also help with your networks, computers, Internet website, and software systems.
